## Education

### Modern Academy Al-maadi

Aug. 2024 – Jun 2028

Bachelor in Computer Science

Cairo, Egypt

## Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Machine Learning
- Front-end Development
- Back-end Development
- Database Management

## Experience

### Pathline Academy Internship

Apr 2025 – May 2025

Full-Stack Intern

Cairo, Egypt

- Built a full-stack web application from scratch during an internship at Pathline Academy using MERN stack (MongoDB, Express.js, React.js, Node.js), showcasing skills in both frontend and backend development.
- Leveraged strong self-learning and research abilities to solve real-world development challenges without external guidance, focusing on debugging, deployment, and system integration.
- Applied Git and GitHub for version control and collaborated on project tasks independently, simulating a real-world development environment.
- Designed and implemented essential features such as user authentication, CRUD operations, and responsive UI despite limited prior experience, and was selected among the top 3 interns for performance.
- Demonstrated adaptability and initiative by quickly learning new concepts, improving project design under pressure, and incorporating feedback into development cycles.

## Projects

### Portfolio Website | *React.js, Tailwind CSS, Framer Motion, EmailJS*

June 2025

- \* Designed and built a fully responsive personal portfolio website from scratch using React and Tailwind CSS.
- \* Implemented dynamic sections such as Projects, Experience, Skills, Contact, and Certificates with smooth animations using Framer Motion.
- \* Integrated EmailJS to handle contact form submissions and send messages directly to my email inbox.
- \* Focused on clean UI/UX design with accessibility, mobile responsiveness, and performance optimization.

### Mandoob E-commerce Platform | *React.js, Node.js, Express.js, MongoDB, Redux, Stripe API*

June 2025 – Present

- \* Developing a large-scale multi-functional e-commerce website inspired by platforms like Amazon, supporting real product listings, checkout, and payment workflows.
- \* Built secure user authentication system with role-based access for users and admins using JWT and bcrypt.
- \* Integrated online payment gateway via Stripe API and added support for multiple languages (English Arabic).
- \* Implemented an admin dashboard for managing users, products, orders, and analytics in real time.
- \* Structured the system to handle three separate roles: User, Admin, and Blog Author, each with custom permissions and dashboards.
- \* Currently focusing on advanced UI design, clean architecture, and responsive layout to ensure a seamless user experience across devices.

## Technical Skills

**Languages:** HTML/CSS, JavaScript, TypeScript, Python

**Libraries:** scikit-learn, TensorFlow, PyTorch, fastai, NumPy, Pandas, Matplotlib, Keras

**Frameworks:** React.js, Next.js, Node.js, Express, MongoDB, PostgreSQL

**Technologies:** Git, GitHub, VS Code
